## Appendix-6 Flight Crew Licence and rating validity extension

<b>Alleviation Title</b>	<b>Flight crew licence and rating validity extension</b>
<b>Version</b>	2.0
<b>Publication Date</b>	24 May 2020
<b>Relevant Standard(s)</b>	Civil Aviation Authority of Nepal "Personnel Licensing Requirements (PELR)" 1.25.2 states.... "The validity of the license or certificate issued by CAAN has been managed in such a way that other contracting states are enabled to be satisfied as to the validity of the license or certificate."
<b>Problem Statement</b>	To meet the requirement of the abovementioned Standard, Civil Aviation Authority of Nepal issues licences and ratings with an expiration date. Because of social distancing practices, closure of workspaces and other preventive measures, Nepal may not be able to process licence or rating revalidation as required by the requirements.
<b>Applicability</b>	<ul style="list-style-type: none"> <li>➤ Licences, which were valid at the point of time as determined by the Nepal, defined in the published alleviation measure as part of CAAN circular on COVID-19.</li> <li>➤ This alleviation applies for the period established by Nepal and ending no later than 30 December 2020.</li> <li>➤ This QRG will not be applicable for those individuals who are under investigation following any accident or incident or events related to breach of regulations.</li> </ul>
<b>Alleviation summary</b>	This alleviation allows pilots from States that issue licences or ratings with an expiry date to conduct an international operation after that date.
<b>Operational context</b>	<ul style="list-style-type: none"> <li>➤ Licences for which the privileges of the licence or rating would normally be required to be revalidated during this alleviation period.</li> <li>➤ Either:             <ol style="list-style-type: none"> <li>a) all revalidation requirements have been met but the administrative process could not be completed, or</li> <li>b) the revalidation requirements have been met in accordance with other alleviations issued by Nepal</li> </ol> </li> </ul> <p><i>Note: See other QRGs such as Flight crewmember training programmes; Recent experience requirements; and Medical certificate validity extensions.</i></p>
<b>Possible Mitigations and Solutions</b>	The following measures address the risk of disruption as described in the problem statement.

## CAA Nepal- COVID19 Quick Reference Guide

---

	<ul style="list-style-type: none"><li>➤ A companion document outlining the State's alleviation standards is carried by the pilot</li><li>➤ The pilot or operator confirms the States over which the flight will overfly and the destination accept the published temporary differences.</li><li>➤ If applicable, pilot complies with any relevant of Flight Operations Requirements (FOR) alleviation standards published by CAA Nepal</li></ul>
<b>Alleviations likely to be unacceptable to other States</b>	An alleviation applicable to a license holder subject to relevant enforcement, or any suspension or cancellation action.
